This key will allow your entire class to activate both Tableau Desktop and Tableau Prep Builder for the duration of the course.

Instructions:

1. Sign into an existing Tableau.com account, or create a new account using your school-issued email
2. Once signed in, visit the Academic Quick Start page to download the latest versions of Tableau Desktop and Tableau Prep Builder
3. Activate with product key: **TCRX-3231-0DC0-CFEA-74AE**
4. Already have a copy of Tableau Desktop installed? Update the license key in the application: Help menu → Manage Product Keys

Having trouble? The Academic Quick Start page includes FAQs and help articles.

Some helpful resources:

- Check out Tableau's Free Training Videos and Tableau Public's How-To Videos
- Join the Tableau Community and explore the Tableau Neighborhood to search and ask questions
- For product support, review the Knowledge Base and Tableau Help platform

If you use a Mac or Linux operating system, you may need to install specific drivers to run Tableau Desktop and Tableau Prep Builder. You can find relevant drivers here. As a note, Tableau uses the Simba Spark driver to connect to Kyvos. These drivers are to be used for your instance of Tableau only and will be linked to your product key.

For further questions, you may review our FAQ page.
